

CAMPANIA

FROM ANTIQUITY TO PRESENT

SEMINAR WEEK • FALL SEMESTER 2022
PROF. HOLZER . INSTITUT FÜR DENKMALPFLEGE UND BAUFORSCHUNG

Campania – the region around Naples – abounds in architectural traces of an infinitely rich past ranging from Greek antiquity to modern times. We will establish ourselves for a week in Naples and explore the city and its scenic environs on the seaside below Mount Vesuvius, by public transport. Visits will not just show us famous highlights such as the temples of Paestum, Pompei and the Royal Palace of Caserta, but also less known, but particularly interesting buildings covering almost all the centuries from Paestum up to today. Local experts will permit us to look behind the touristic facades and learn details about the building history and construction of some of the most important monuments. We will travel from Zurich to Naples and back by train. A reception and a dinner will also permit us to get to know the typical local food and enjoy the inspiring atmosphere of legendary Naples.

23.10. - 29.10.2022

Category C

The fee includes the entire train journey from Zurich, accommodation and breakfast in a hotel, entry fees, one reception and a joint dinner in Naples, as well as the reader.
